TALKING FOR COLOROW.

INDIAN COMMISSIONER ATKINS HOLDS HIM BLAMELESS.

He Intends to Ask Congress to Reimburse the Indians for the Stock Stolen from them During the Late Trouble—The Bond Offerings.—Washington News.

WASHINGTON, Sept. 22.—Indian Commissioner Atkins announces that he is going to ask congress to reimburse Colorow and his band for stock stolen from them during the late "Indian war." The commissioner is very sarcastic about this alleged war, and says openly that he considers it a great outrage against Colorow and his band. He does not entertain a doubt of the entire good faith of Colorow, except that his band were on the old reservation in Colorado, which old reservation Colorow has persistently declined to give up.

"Colorow," he said in talking of it, "has never agreed to the proposed removal from the old reservation in Colorado to the new reservation in Utah. He opposed it when the band generally were transferred and remained on the old reservation. It was on the lands still claimed by him that his people were hunting when the great cry was raised and the attack upon him made."

"Do you think they were on the war path then?"

"Not at all. On the contrary, I think that their intentions were peaceful."

"What was the cause then, do you think, of the attack upon them?"

"A desire to get their stock and drive them off the lands they have been occupying. It seems to have begun with some cowboys and lawless men, and the governor of Colorado was entrapped into calling out the state troops to sustain what was merely an attempt to rob a few poor Indians of their stock."

"How successful was the effort?"

"Eminently so. They succeeded in running off several hundred ponies and several thousand sheep and goats. I am so much impressed with the injustice of this course that I shall ask congress to reimburse the Indians for the losses where they actually occurred."

"But how about the state of Colorado? Where not the raids of the Indians under the authority of the state government?"

"Yes, I so understand. But we have nothing to do with that, you know. We must look to congress, and if congress wants to call the state to account, why that is another thing."

"What was the value of the stock taken from them?"

"Probably about \$10,000. There were 300 ponies, 2,000 sheep and as many goats."

"Do the Indians raise sheep and goats in numbers, as that would indicate?"

"Yes, thousands of them. The fact is, the Indian is a good deal more developed in the ways of civilization than the people generally suppose. If he is left alone by bad men, and given opportunity, he is inclined to adopt our modes of life and become a peaceful citizen. You would be surprised to see how many of the Indians are taking advantage of the opportunity to take their lands in severalty, build houses of the own, and adopt the modes of civilization."

"And where they do this does it seem to work well for them and make them more peaceable?"

"Oh, yes. The Indian is about the same sort of a creature as anybody else in that general condition would be. Give him something of his own in which he feels a personal and proprietary interest, and you make him a better citizen. Those who have tried the methods of civilization are highly delighted with the experiment, and could not be persuaded to go back to their old habits."

"Do you look upon this system of giving them lands and homes of their own and encouragement of farming and stock raising and that sort of thing as a solution of the Indian problem?"

"Most assuredly. I look to see one-half of the Indians adopting the land in severalty system within five years and in a few years more expects to see the tribal and wandering customs practically a thing of the past."

"You seem to have some hope for the noble red man."

"Yes; I find that a closer study of him and his inclinations leads to a better opinion and more confidence in his future. I fully believe that education, civilization and the ownership of property will make the Indian a good citizen."

"Do they become citizens, in the full sense of the word, when they adopt homes and give up tribal habits?"

"Yes; they are full fledged citizens then."

"What effect does the adoption of civilized life seem to have upon him physically? Was an Indian ever known to become cleanly in his habits?"

"Yes. They take kindly to the comforts of civilization, and it does them good, too, for we find that after a tribe has adopted civilized methods a few years they begin to increase in numbers instead of steadily decreasing, as all Indians have until this new manner of life was introduced among them."

"How many Indians have we now in the entire country?"

"Not over a quarter of a million, if that many."

The Bond Offerings.

WASHINGTON, Sept. 22.—The bond offerings at the treasury department to-day were unusually light, aggregating in round numbers only \$70,000 four-and-a-half per cent. TOO SWEET TO LIVE.

That is What a Gang of Michigan Robbers Think of a Telegrapher.

JACKSON, Mich., Sept. 22.—D. W. Clark's jewelry store was robbed recently at Grass Lake, and Clarence Sweet, Clark's brother-in-law and a telegraph operator, undertook to ferret out the robbers. One day he announced that he had struck a clew that would lead to the arrest of the burglars, and that they were residents of Grass Lake. A day later he was advised by an anonymous letter to cease his efforts at detecting the robbers on penalty of death. This only served to urge Sweet to renewed efforts, and he applied for leave of absence to prosecute his inquiry.

The townspeople had learned of all these facts, Sweet not deeming it necessary to hide his light under a bushel. At 10 o'clock yesterday, while in his office, sitting with his back to the window, he was shot at by some person, who instantly fled and has escaped arrest. The bullet passed close to Sweet's head. The excitement is intense, and startling developments are promised soon.

Reckless Accident.

CINCINNATI, Sept. 22.—A peculiar and disastrous accident occurred at the stables of the Consolidated Street Railroad company, on Harrison avenue, shortly before 11 p. m. Tuesday. The second floor of the western stable, which was weighted down with thousands of bushels of shelled corn, suddenly gave way, burying twenty horses. Seven of these were killed. Some men who were in the stable at the time heard the preliminary groaning of the timbers and made their escape. The cause of the accident is supposed to have been the weakening of the supports from a recent fire. Some men were at first supposed to have been killed, but all are now accounted for. The loss will reach \$4,000.

The Eads Ship Railway Company.

PITTSBURG, Sept. 22.—The Eads Teahuntepec Ship Railway company will in a few days take out a charter under the laws of the state of New York in order to carry the project into operation under a law of that state. Hon. A. G. Cochran, of St. Louis, now in Pittsburgh, said to-day: "We have found an act of the New York general assembly that will exactly fit our needs. This act allows of the organization of companies to do business in foreign countries, and gives just such privileges as we have contemplated asking from congress in the shape of a congressional charter. The end of this decade, I think, will see the work pretty well advanced."

Robbed of \$1,500.

PALMER, Mass., Sept. 22.—Mr. Stillman Ellis yesterday drew \$1,500 from the Munson National bank to pay off his factory hands. He took the money to his residence, carefully deposited the package on the piano and attended to some business in another part of the house. A prolonged cry for help caused Mr. Ellis to come back to the piano room where he found his daughter lying unconscious on the floor with an ugly wound on her head. The money was missing. Miss Ellis has not yet gained consciousness and there is no clue to the identity of her assailant. The town is in a state of intense excitement over the dastardly deed.

Odd Fellows Insurance Company Case.

MADISON, Wis., Sept. 22.—In the case of Mary Stylow, of Watertown, against the Wisconsin Odd Fellows Mutual Life Insurance company, the supreme court has decided that such insurance companies are liable for losses even though policy holders may be owing two assessments, providing the company had previously received assessments overdue. In this particular case Stylow, the deceased, held a policy in which there was clause nullifying it, if the holder failed to pay his assessments within sixty days. The decision is very important as showing the liabilities of Mutual Life Insurance companies.

Four Cases of Starvation in Cleveland.

CLEVELAND, O., Sept. 22.—Mrs. Alexander Grover is a young woman, aged twenty-four, and although only married three years, has been repeatedly deserted by her husband. She was found in an unfurnished room of a tenement starving to death, with two emaciated babies at her breast. Through lack of nourishment the babies have wasted away to mere skeletons, and will die. Mrs. Kate Smith, once a wealthy woman, was found dead in a little shanty yesterday, having starved to death. The miserable abode was barren of furniture and destitute of every necessary of life.

A Great Mystery.

WORCESTER, Mass., Sept. 22.—Lizzie Hoyt disappeared from Webster September 1. Her body was found yesterday in a corncrib in a barn on the Aldrich place at Oxford. She had been murdered. Her head was covered with a cloth, and feet and hands tied with rope. The body was so well concealed that its presence was discovered only when the odor of decaying flesh led passers-by to make an investigation. An inquest will be held.

Habeas Corpus Case Denied.

JACKSON, Miss., Sept. 22.—After a trial of ten days Chief Justice Cooper has denied the appeal of Col. Hamilton and Mr. Eubanks for a second writ of habeas corpus. He decided that Judge Peyton's decision last June, remanding them to jail without bail for the murder of Gambrell, must stand until reversed by the supreme court.

Alaska's Attorney Dead.

SEATTLE, W. T., Sept. 22.—M. D. Ball, United States attorney for Alaska, died on the steamer Ancon while en route to this city. His body was shipped last evening to Washington City where interment will take place. Mrs. Ball accompanies the remains.

MINERS MORE HOPEFUL.

A POSSIBILITY THAT THE STRIKE WILL SOON END.

All the Collieries in the Schuylkill District will Resume Work During the Week—The Trouble in the Coke Region. Other Labor Troubles.

HAZLETON, Pa., Sept. 22.—Late reports from the Schuylkill district show that all the individual operators are falling into line and accepting the agreement of the Reading company, and all the collieries in that section will resume work during this week. Among the many rumors being circulated comes one from Beaver Brook that a large number of employees of the works there had purchased tickets and were about leaving for the Schuylkill regions, in hopes of securing work, whereupon the superintendent of the colliery requested them to delay their departure. This is looked upon as the beginning of the end.

Matthew Long, a former influential labor advocate in this section, is out in a letter in one of the local papers in which he requests the business men of Hazleton and vicinity to hold a meeting and formulate a plan to appeal to the parties at issue to adjust their differences. He writes: "If the strike is continued any length of time it will involve a loss in wages of hundreds of thousands of dollars monthly and will affect very materially every merchant and professional man." Mr. Long's suggestion, while it is well received by the majority of our business men, has not been acted upon, and none of the leading merchants seem willing to make a start, as they deem it a thankless position to intervene, especially at this time when both parties are still at fever heat.

Chicago Street Railway Troubles.

CHICAGO, Sept. 22.—The situation in the prospective strike on the west division street railway appears from latest indications, to be this: The company is disposed to grant an increase to twenty-one cents per hour but will go no further, preferring to have a strike rather than submit to the men's demands for twenty-two cents. The men on the other hand believing they can get the twenty-two cents are not in a mood to accept any less. If the directors offer them a compromise of twenty-one cents with the choice of accepting it or striking, it is quite probable the men at their next meeting may vote to accept it. The chances seem to be, however, that they will decide to take nothing less than the full demand.

Failed to Materialize.

PITTSBURG, Sept. 22.—The threatening strike in the coke regions, which it was claimed was to be inaugurated, did not materialize. A few of the works were idle yesterday, but the superintendents of these works were specially notified by the men that their idleness was not to be construed as a strike, but that they were laying off to attend the mass meeting at Mount Pleasant. The works that are idle are the Alice, Bessemer, Rising Sun, Hazlett, Palmer and Diamond. All of the other works throughout the region are reported in full operation.

Adjusted the Difficulties.

MOUNT CARMEL, Pa., Sept. 22.—An amicable adjustment of the difficulties at the Union Coal and Mineral Mining company's collieries has been reached and work will be resumed at Hickory Ridge, Hickory Swamp and Pennsylvania collieries. An advance of 8 per cent. has been granted. Davis & Co., of New Castle, have also agreed to give the advance.

BIG QUESTION CONCERNING LAND.

Three Million Six Hundred Thousand Acres in Dispute at St. Louis.

ST. LOUIS, Mo., Sept. 22.—Gen. Benjamin Z. Butler arrived in the city yesterday on legal business. Late in the afternoon he appeared at the custom house, and was accompanied by a bevy of lawyers to the United States circuit court chambers, where he argued a land case. The suit is an action of the United States government against the Cleveland & Colorado Cattle company, involving the validity of the Las Animas or Vigil and St. Vrain land grant, including 8,600,000 acres of land in New Mexico and Southern Colorado.

The case is one of great importance as bearing on grants made by the Mexican government to lands in the territory afterward annexed to the United States. The grant was made in 1843 by the Mexican governor of New Mexico. The case was instituted by the government to restrain defendants from fencing a portion of the land claimed. The grant is technically known as an empresario grant, confirmed by the treaty of 1848. Gen. Butler appeared in his own behalf as representing large interests in the grant, which he claims will be affected by the litigation. The government is represented by District Attorney Hobson, of Colorado, and the defense by Dixon & Verboom, of Denver, and John Coon, of Cleveland.

A Mysterious Tragedy.

WILKESBARRE, Pa., Sept. 22.—George Davis, a wealthy farmer living about four miles from West Nanticoke, left for home about dark Monday evening, with a wagon loaded with lumber. Shortly after midnight his wife was aroused from sleep by the noise of the wagon entering the yard in front of the house. She expected to hear her husband moaning about, but heard nothing. Taking a lantern she found the horses and wagon standing by the barn, and when she drew near she saw the headless body of her husband lying on the lumber. The exact manner in which he met his death cannot be told, but it is believed that falling asleep on the road he lay down with his head hanging over the edge of the lumber. In making a turn the horses must have brought the wheel around and caught his neck between the wheel and lumber, completely severing the head from the body. The head was found two miles from the house.

National Association of Ministers.

HARRISBURG, Pa., Sept. 22.—The National Association of Local Preachers now in session here elected C. B. Stemen, of Fort Wayne, Ind., president for the ensuing year. The next convention will be held at Columbus, O., in September, 1888.

HALF A DOZEN DUELS.

To Come Off Between the Champions of Lopez and Maximilian.

CITY OF MEXICO, Sept. 22.—Much public interest is felt in the duel announced for to-day between Gen. Naranjo and Gen. Pradillo, governor of the palace. A report was current at the clubs yesterday that the duel was to be to the death.

A duel between two well known journalists is also on the tapis according to report, and a few nights ago a duel with swords between two young army officers resulted seriously, and another duel with swords is reported to have occurred in the open street in the centre of the city.

The controversy over the question of the treason of Gen. Lopez has grown very bitter, and a certain distinguished general of the Liberal party is said to have told an officer under the late empire that for every Imperialist who wanted to try conclusions on the field of honor there were ready Liberal officers who were not afraid to submit to the arbitration of the duello.

Duelling is forbidden by law, but the law against it is practically a dead letter, public opinion sustaining this method of settling differences.

In the duel Monday between Gens. Rocha and Gayon, white powder was used to give extra force to the balls, and it is now stated that Gen. Rocha offered Gen. Gayon another shot, but that the latter was too weak to undertake it. Gen. Rocha's friends believe that he bears a charmed life, he having been engaged in innumerable affairs of honor without receiving a single scratch, and he himself is said to share the same belief. Gen. Gayon was improving last night and has been the recipient of many attentions from Gen. Rocha, the president and others.

A rumor spread yesterday afternoon that Gens. Naranjo and Pradillo had already fought, but this was subsequently authoritatively contradicted.

How He Got a Job.

JOLIET, Ill., Sept. 22.—George Jacobs, of Belvidere, was out of work and wanted a job, and wanted it bad. In his fertile brain he conceived a scheme which he thought would bring him the coveted job, and it did. One dark night recently he rolled a huge stone on the track of the Chicago & Northwestern railway, near Belvidere. He then awaited the approach of the midnight express train from Chicago, and just before the train reached the curve where he placed the rock he lit a newspaper and waved the flame in the air and stopped the train, but not until the engine had shoved the stone some fifty feet along the track. In the opinion of the passengers nothing was too good for the brave Jacobs, who had prevented a terrible wreck by stopping the train in the nick of time. He would not accept any money. All the reward he wanted was a job on the road. The company had a shrewd detective in its employ, who followed the case up so hotly that he made Jacobs confess that he placed the stone upon the track. The Boone county court at once put him in the way of a job, which includes board and clothing. He has arrived at the Joliet prison, sentenced for three years for the crime of malicious mischief. His job for the next three years will be hammering stones.

Kansas Shooting Sensation.

LEAVENWORTH, Kas., Sept. 22.—Yesterday afternoon a woman ran screaming down a stairway in Delaware street near Main with a stream of blood running down the waste of her dress. She exclaimed: "He has shot me," and as she started up street a man came down the same stairway and attempted to shoot her the second time, when he was seized by a bystander and his pistol taken away. The man was Quinten Campbell, editor of the Evening Sun, and the woman was his wife. It is the old story of domestic infelicity and wrong doing on the part of the woman, who is young, handsome and about twenty years the junior of her husband. Campbell gave himself up to the officers and Mrs. Campbell was remanded to their house. Campbell says his wife confessed to him that she had not been true to her marriage vows and then he shot her. The doctors say that unless inflammation sets in Mrs. Campbell will recover. She has refused to swear to a warrant for her husband's arrest.

Another Successful Train Robbery.

FORT WORTH, Tex., Sept. 22.—A daring express robbery occurred on the Texas & Pacific road last night near Benbrook, twelve miles from here. Two masked men boarded the cab of an east bound passenger train as it left the station, and with drawn revolvers ordered the engineer to pull out of town a few miles and then stop. It was checked on a high trestle, but on being ordered the engineer ran it over to the other side, where two more masked men jumped on. A dozen shots were fired in the express car when Express Messenger Maloney opened the door and a man entered, cleared out the safe, afterwards going through the mail car and taking every registered letter. The booty in all was worth \$30,000. There were guards in the passenger coaches, but there was no attempt made to molest the passengers, the job having been done in ten minutes, when the engineer was ordered to pull out. A train was robbed on the same trestle last June.

Outrage by Moonshiners.

ATLANTA, Ga., Sept. 22.—The moonshiners around Dahlonega are becoming aggressive. Notices have been served upon informers that they must make themselves scarce. A party of masked moonshiners went to the house of James Ash, broke it open and beat him over the head with a pistol until he was senseless. They then took him to the woods, tied him to a tree and lashed him severely, the number of times Mr. Ash could not tell, owing to his insensible condition. He has left the neighborhood and is afraid to return.

Will Not Engage in a Heated Contest.

NEWARK, N. J., Sept. 22.—United States Senator McPherson writes in reply to a friend's inquiry that he will not be a candidate for renomination if to do so means a heated contest. He intimates that if his party is practically unanimous in desiring his candidacy he will consent.

Successful Surgical Operation.

BONHAM, Tex., Sept. 22.—The dangerous operation of ovariectomy was performed last night on Mrs. John H. Decker, of this city, and a tumor weighing thirty-five pounds was removed. The lady is resting easy.

SCOTT COUNTY will vote next Saturday on a proposition to subscribe \$100,000 to the Frankfort, Georgetown and Paris Railroad. There is a warm fight being made.

IF "Little Breeches" Foraker had not been snubbed by Mrs. Cleveland at Philadelphia he would have been disappointed. He went there with that expectation, and he knows down in his little heart that he deserved worse treatment than he received.

DURING ex-Governor Knott's term of office he pardoned two hundred and thirty-eight convicts. Rev. H. H. Kavanaugh, chaplain of the penitentiary, says two hundred and thirty-one of these had become members of the church and professed their intention to try to lead better lives.

A MASS meeting of the citizens of Clark County will be held Saturday to select delegates to the State Industrial and Commercial Convention at Louisville on the 4th of next month. The counties will be well represented, it seems, at Louisville, and the convention will do much to boom the State.

MONDAY was the twenty-sixth anniversary of the first occupation of Lexington by the Federal troops, under Colonel Bramlette. At that time John C. Breckinridge and General William Preston had to flee from the city to escape capture. A correspondent notes as remarkable coincidences that the site for Breckinridge's statue was surveyed Monday and that General Preston was at the point of death.

Mixed Schools at Ripley.

The question of "mixed schools" promises to give considerable trouble at Ripley. When the fall term commenced the first of this month the Board of Education refused to admit the negroes to the white schools. The number of colored folks who demanded admission was not very large, but those who did were quite indignant at the action of the Board, as an act of the last Legislature destroyed the "color line," so far as the schools were concerned. Ever since the refusal to admit them to the white schools, the negroes have been agitating the matter more and more, and the courts have at last been resorted to for a settlement of the question.

Some of the colored people, by their attorneys, White & Young, have filed suit and asked the court to mandamus the Board of Education and compel it to admit the negro children to the schools. The decision is anxiously awaited.

J. S. Atwood, a wealthy negro of Ripley, and who is President of the Board of Trustees of the Blind Asylum at Columbus, is taking an active part in favor of the question.

The pellets operate thoroughly but harmlessly, establishing a permanently healthy action of the stomach and bowels, and as an anti-bilious remedy are unequalled.

The object of the meeting has not been learned.

AT Milldale, Tuesday, Theodore Wederstein, a brakeman on the Kentucky Central, met with a horrible accident, which will render him a cripple for life. Falling under the cars, he sustained frightful injuries to his lower extremities. His left foot was so badly mangled that it will have to be amputated. The right one, though badly mangled, will probably be spared to him. He was removed to the Good Samaritan Hospital at Cincinnati.

Letter From Louisville.

The Exposition this year has become very popular with the people of Louisville. All find something to amuse themselves in its many attractions.

The attractions in Music Hall are especially novel and interesting. The first week a Japanese troupe was there, and their performances were perfectly wonderful. Their balancing was brought to such a fine point that one Jap made a spinning top move up and down on a sword's edge, another balanced a bamboo pole on his shoulder while a little Jap boy performed on it—at one time standing one hand and foot on the pole the other out in the air, fanning himself while in that position, the Jap below in meanwhile not touching the pole but merely balancing it on his shoulder.

The second week, the world-renowned magician, Hermann, performed. His tricks were varied and all good. One very funny thing occurred at the performance I attended. Hermann had been taking some rabbits from a hat when a man in the audience said: "You can't fool me with that trick." "I can't, you say, well I will fool you with a better one. I will pull them out of your coat," and with that Hermann rushed down to the man and caught hold of him. The man resisted, but Hermann grabbed his coat and pulled three rabbits out of it. Another good one was the dove trick. He had a negro man on the stage. Hermann would touch the back of his head with his hand and an egg would drop out of his mouth. He repeated this until he had six eggs. These he broke and put in a pan with three rings borrowed from some one in the audience. Then putting all on a fire, in a few minutes he raised the lid and lifted out three doves sitting on a stick, each one with a ring tied around its neck with a piece of ribbon. His tricks were the best of the kind I have ever seen.

ATLANTA.

Saved His Life.

Mr. D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from first bottle and after taking six bottles, was entirely cured, and had gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

Photographing Criminals.

In my business we learn to detect the foibles and weakness of men and women, but in the jail you would not expect to find any vanity in the matter of personal appearance. Nevertheless there are many prisoners who take a pride in securing a good negative. Ordinary prisoners never object to the process of "mugging," because they are too ignorant to understand the advantage of a picture in the hands of the police. High toned crooks from the east always object. Maxwell will sit all day for you and then take the negatives and examine them critically, as he is something of a professional, having dabbled in chemicals at home. I have twelve different pictures of him and he would cheerfully sit for as many more if I gave him a chance. Sophia Lyons, the famous New York shop lifter, cried and raved like a fury when brought before me, but finding the detectives inexorable, she dried her eyes, primed her hair, adjusted her bonnet, dabbed a little powder on her cheeks and told me to go ahead, that, if she couldn't help it, she would have a good portrait. Jane Cosley, another big shop lifter, sat smiling as sweet as an angel, after having made a desperate fight, clawing like a catamount, and her face is one of the prettiest in my collection.—Police Photographer in Globe-Democrat.

Gen. Butler's Favorite Theme.

Gen. Ben F. Butler has one subject that the reporters can always find him ready to talk about, and that is yachting. No matter how busy he is he will put aside business a few moments to converse on his favorite theme. He is as familiar a figure at the Fifth Avenue hotel (so old timers say) as was Horace Greeley, who frequently stopped there. Gen. Butler has a faithful colored servant who rarely ever leaves his side, no matter where he goes. This colored man pays the bills for the general wherever they happen to stop, and sees that various and sundry people do not intrude upon the aged lawyer. A reporter not long ago sent his card up to Butler. He sent word that he was too busy to be interviewed; besides he did not care to talk politics. The reporter sent his card back with this written on it: "General, I desire to ask you something about your yacht, the America." The answer was immediately received to come up to his room. It is needless to say that the reporter was given valuable points about yachts, but did not get in a word edgewise about politics.—New York Mail and Express.

A Codfish in Harness.

A young man at Fort Popham the other day caught a cod which weighed probably thirty pounds, and which he placed in a large hoghead and so kept alive. When the party went into the water the young man harnessed up the cod with stout twine and placed him in the water. He had a great deal of sport, and finally, after considerable persuasion, allowed a young lady to try his sea horse. A life preserver was procured and fastened on her, and she grasped the reins holding the large cod. The fish struck out for deep water at a rapid pace. The young lady, becoming uneasy, dropped the reins, but they caught in her feet, and if a party had not gone to her rescue in a sailboat the result would have been disastrous.—Portland Argus.

Dynamiter Arrested in Texas.

SAN ANTONIO, Tex., Sept. 22.—Ignatius Coyle, the Irish Catholic editor, who on Monday stated that he would stop the celebration of the Fall of Rome, which was to take place yesterday, was yesterday morning arrested and lodged in jail. When seen by the reporters he cheerfully informed them that when he was arrested he was on his way to several houses where work on nitro-glycerine to throw on the Italians was being done. He has a receipt for the construction of clocks, bombs, fuse bombs and other kinds of infernal machines. He had no tools on him when taken. He expressed a perfect willingness to die for the mother church, and only regrets that he was frustrated in his design to blow up six or seven Italians.

Massachusetts Democrats.

WORCESTER, Mass., Sept. 22.—The Democratic state convention met after a short recess and finished nominating a state ticket, as follows: Lieutenant governor, Walter E. Cumming, of Pittsfield; secretary of state, John F. Murphy, of Lowell; treasurer, Henry C. Thatcher, of Yarmouth; attorney general, John W. Corcoran, of Clinton; auditor, William F. Cook, of Springfield. The convention then elected the following delegates to the National convention: P. A. Collins, of Boston; James H. French, of Gloucester; John W. Cummings, of Fall River; Josiah G. Abbott, of Boston. Alternates: C. G. Lewis, of Framingham; James E. Delaney, of Holyoke; Godfrey Morse, of Boston; John R. Thayer, of Worcester.

Joined the Canadian Colony.

TOLEDO, O., Sept. 22.—Homer Overmeyer, western agent for the Eureka Huller company, of Ashland, O.; C. Aultman & Co., of Brookport, N. Y., and Easterly Harvest company, of Michigan, has joined the American colony in Canada. Several days ago Overmeyer sold a number of hullers belonging to the Eureka company, collected what money he could on other machines, and has since been missing. No uneasiness was felt by his family. However, as it was supposed he was on the road or at some fair exhibiting machines. Yesterday Mrs. Overmeyer received a letter from her husband dated "Canada," in which he confesses to being a defaulter to the amount of about \$11,000. Representatives of the different firms are investigating.

Report of the Chatsworth Accident.

SPRINGFIELD, Ill., Sept. 22.—President E. F. Leonard, of the Toledo, Peoria & Western, has filed with the state railroad and warehouse commission an official report of the Chatsworth accident. The document says nothing of the circumstances under which the train was wrecked, nor does it attempt to locate the responsibility for the wreck. The report estimates from the number of tickets sold that there were 840 persons on the train, of whom eighty are now dead. The number injured is given as 151, ten of whom were employees of the road. Nine employees and 103 passengers have recovered from their injuries and thirty-nine are still under the care of physicians. Three or four are not free from danger of fatal results.

KNIGHTS OF PYTHIAS.

Annual Meeting of the Grand Lodge of Kentucky at Lexington.

The annual meeting of the Grand Lodge of Kentucky, K. of P., convened at Lexington Tuesday. The city was gaily decorated in honor of the occasion. The visiting Knights were received by Phantom Lodge, of that place, and are being entertained in handsome style.

At 10 o'clock that morning the visitors were warmly welcomed to Lexington by an appropriate address delivered by Sir Knight E. L. Hutchison, of Phantom Lodge. Grand Chancellor W. N. Rudy, of this city, responded on behalf of the members of the Grand Lodge. The Daily Press in speaking of Mr. Rudy's address says: "The happy gathering and the warm welcome inspired the gallant Knight to the utterance of some beautiful thoughts. He was deeply moved by the heartiness of the reception which he and his brethren had received, and declared that the sentiments contained in the address to which they had listened were heartily reciprocated. He and his brother Knights had looked forward with pleasurable anticipation to their visit to the Bluegrass Capital and he was bound to say that the generous cordiality of the courtesies which had been extended them during their, as yet, short stay, was such as to stir within their bosoms the liveliest feeling of gratitude."

The Grand Lodge of the order of which he had the honor of being a member had selected Lexington for its regular annual meeting this year as a compliment to the people of one of the fairest sections of the State, and in response to the urgent request of the local Lodge, whose members have proved themselves to-day, as they have at all times, worthy brethren in the cause represented by this noble organization. To his brother Knights of Lexington as well as to the generous public, whose ostentatious display of the colors of the order as decorations for their dwellings and business houses, a compliment of the most pleasing character, he extended his profound thanks. He felt that he and his brethren had come among brothers and friends. He and they would surrender themselves to the hospitable people and brethren of Lexington, unconditionally, trusting some day to be able to secure for the Lexington Knights elsewhere, though hardly hoping to, a reception as abundantly hearty and hospitable as this. He thanked the ladies for their presence, and was eloquent in speaking of their beauty, a bounty thrown from the hand of God to make them lovely in the sight of men, for which may the Lord make all truly thankful."

At the conclusion of Mr. Rudy's address, the Grand Lodge went into secret session.

NOTES.

About three hundred Knights are in attendance.

The past season two and a half bushels were gathered from each bush. Average diameter of berries, seven-eighths of an inch. We are told the greater portion of these berries were exported, the King of Saxony being the importer of same.

N. B.—This is no snake story.

A SPECIAL from Washington City says that Miss Theresa Blackburn, the eldest daughter of Senator Blackburn, is there selecting her trousseau for her approaching marriage with Mr. J. Tweed Stewart, of Cincinnati. The event will take place at the Episcopal Church in Versailles, Ky., Friday, October 21st, at 12 o'clock. The ceremony will be performed by Bishop Dudley. The two sisters of Miss Blackburn will act as bridesmaids. Mr. Stewart will be attended by his cousins. Mr. Stewart is connected with the book-publishing house of Van Antwerp, Bragg & Co., Cincinnati, and is a gentleman of fine business qualifications.

Stock and Crops.

Farmers in Bourbon County report half a crop of corn.

At St. Paul, Minn., the race between Johnston, pacer and Harry Wilkes, trotter, for \$3,000, was won by Johnston in straights. Time, 2:16, 2:15, 2:15.

At the Nebraska State Fair Jay-Eye-See made an effort to beat his record—2:15—for a purse of \$1,000. The effort was a failure, and a very poor exhibition trot. Time, 2:19.

It is estimated that eighty thousand bushels of peaches will be shipped from Holmes County, O., by time the season is over. There was never known such a crop in the county. Thousands of bushels will go to waste. There are no apples of any consequence in the county.

A Fayette County farmer and close observer says he bought one hundred feeding cattle last year—invested about \$5,000—and one hundred sheep at a cost of about \$300. The net profits from the sheep were greater than from the cattle. He got \$4.50 per head for the lambs, and raised more lambs than he had ewes. The wool from the ewes brought \$1.50 per head, and they sold, weighing 120 lbs., at 3½ cts.

BARGAINS AT HOLTON'S—CLOSING-OUT SALE THIS WEEK.

BIG OIL CONFLAGRATION.

TWO LIVES LOST IN A STANDARD OIL FIRE.

The Loss is Estimated at a Hundred Thousand Dollars—The Glass Works at Sharpsburg, Pennsylvania, Burned.

TOLEDO, O., Sept. 22.—Private dispatches have reached this city bringing information of a large oil conflagration near Cygnet, a little village on the Toledo, Columbus & Southern railway. The village is situated one mile south of this place, where there are a large number of storage tanks owned by the Buckeye Pipe Line (Standard Oil company), and consisting of nearly a dozen large oil wells, all of which have been flowing into these tanks. The fire broke out last night about 5 o'clock, the gas which has been continually exhaled by the wells having been ignited by the fire beneath an engine boiler. The woods and everything in close proximity to the wells being redolent with oil were at once in flames, and all efforts either to extinguish the fire or shut off the flow of oil and gas were futile, and the fire continued to burn until the derricks and a large portion of the tanks were consumed.

The engineer who had charge of the field, and whose name is not known, is thought to have been fatally burned. The life of a companion with him, name also unknown, is despaired of. The loss will exceed \$100,000.

Glass Works Destroyed.

PITTSBURGH, Sept. 22.—The Gallatin Glass works at Sharpsburg were totally destroyed by fire at 1 o'clock this morning. The flames were first discovered on the roof of the building and spread rapidly. The factory with its contents and a number of outbuildings were totally destroyed, the warehouse alone being saved. The factory employed seventy-five hands. Mr. F. G. Seltz, one of the proprietors estimates the loss at \$15,000, upon which there is a very small insurance.

Flour Mills Burned.

ALBANY, N. Y., Sept. 22.—Capron & Woolverton's flour mill on pier in front of this city, was burned this morning with 100,000 bushels of grain. Loss, \$150,000; insurance, \$100,000. Eight firemen who were caught in an upper story of the burning building were rescued with difficulty. Ladders, proving too short, were lifted on the shoulders of policemen, and the men dropped to them from the windows.

Fire in a Machine Shop.

NEGAUNEE, Mich., Sept. 22.—Fire broke out in the engine house and machine shop of the Iron Cliffs Furnaces at 1:30 this morning. It was impossible to save anything. Loss \$20,000. Covered by insurance.

IN BEHALF OF THE ANARCHISTS.

Signing the Petition for Clemency by the Thousands in Chicago.

CHICAGO, Sept. 22.—The number of signatures to the petition for clemency on behalf of the Anarchists reached about 4,000 yesterday, counting those that the committee of the Amnesty Association had received as actual returns. Of this number about 5,000 were in the city and the remainder scattered through the state. There has been no system devised yet by the committee to circulate the petition. At present the blanks and circulars are being sent to men prominent in labor organizations.

The committee has written out another appeal to go at the head of the petition blanks. It is more voluminous than the first one, and caters to the passions of those who, even in a petition for clemency, cannot forego expressions of abuse against the judicial procedure by which the Anarchists were convicted. The new petition was drawn up as an experiment and will be submitted to the Amnesty association at its next meeting. A member of the committee said yesterday:

"As far as this expression of indignation at the verdict is concerned, I think myself that the verdict was a burning shame and an outrage. But it is entirely out of place to put anything of that sort into a petition for clemency, and I, for one, am setting aside my personal feelings in the matter entirely."

Illinois Mexican Vets in Council.

GREENVILLE, Ill., Sept. 22.—The fifteenth annual reunion of the State Mexican War Veterans opened here today. The Mexican pension bill will be among the more important matters discussed and an amendment will be suggested for adoption giving all veterans of the war the pension regardless of age. Some of the veterans are receiving pensions under the provisions of the Cullom bill, but although they are sixty-two years old they served in some cases only a few months actual war duty, while others, who have not yet reached the sixty-two year limit as to age, served through the entire war and are debarré from any benefit under the Cullom bill. This anomaly the veterans hope to have remedied.

Conductor Mahan's Remains Found.

MARQUETTE, Mich., Sept. 22.—The body of William Mahan, the conductor missing after the terrible destruction of rolling stock caused by the runaway train in the upper yard here, was found yesterday at the bottom of an immense heap of debris. He had been driven into the ground below the level of the track by the force of the collision, and upon him were piled a hundred tons of ore, besides broken cars, twenty-five feet high. More than 100 cars were demolished in the crash. The loss to the company is \$25,000.

A Conductor Shot.

KANSAS CITY, Mo., Sept. 22.—John A. Shaw, a conductor on the Chicago & Alton railroad, was shot and mortally wounded at 11 o'clock last night by William Roach, a switchman at the Chicago & Alton depot in this city. They quarreled because Shaw had put Roach off his train about a year ago. Shaw was taken to the hospital in a dying condition.

Mail-Pouch Recovered.

FORT WAYNE, Ind., Sept. 22.—A mail-pouch was fished out of a cistern back of the Church of God yesterday morning while fishing for a bucket that had fallen in. The pouch had a long slit cut in the side, and was labeled "Kalamazoo to Cincinnati," and was sent out on the 18th inst. Postmaster Kaough took charge of working up the case.

He Was Not Guilty.

WAPAKONETA, O., Sept. 22.—In the case of the state vs. Ruhlman, who was indicted for embezzlement to the amount of \$3,300, the jury returned a verdict of acquittal. Ruhlman was a son-in-law of the late Senator S. B. Snyder.

The list has since been feverish and unsettled on the bear party continuing to put out short sales, but London and prominent commission houses are buying on a scale down. The list is now selling at the lowest prices of the day, owing to the small offering of government bonds today.
